**JOURNAL
OF RUSSIAN PHYSICAL-CHEMICAL
SOCIETY:**

JRPhChS

Volume 89, Issue 3
restarted under that name in 2015

**Continued scientific journal JRPhChS
Russian Physical-Chemical Society, 1872–1930,
to renew their social, scientific
and publishing activities in Russia April 16, 1991**

Publishes:

- the most relevant, useful, original papers of compatriots in all branches of natural science;
- readers' letters and scientific articles, programs and methods,
- advertising, technical proposals, analysis, reviews, forecasts; energy, environment, health, agriculture, industry, engineering, technology, economics, and science.

*Not ranks and titles, nor the age and profession of the authors,
and the degree of public benefit, and the originality of their ideas -
the only criterion for the selection of works for publication*

Priority protection of all published materials. It is intended for all who are not indifferent to the problem of the modern earth, who are looking for a specific field of action for the effective application of their intellectual abilities.

MOTTO OF MAGAZINE:

"New search for truths – only this is the only science"

«EARTH – RUSSIA – PUTIN»

In the name of the Father and the Son and the Holy Spirit.

Three words - one fate.

In these three words - the nearest destiny of human civilization, which will be decided in 2012. Either shameful disintegration in insanity and narcotic frenzy, or the triumph of the Spirit of good, justice and reason - in its concentrated remnant, towards the end of the 21st century.

Earth

The earth is not a clump of a coherent protoplanetary substance of a primitive structure, as the bungler academicians slyly croon, courtiers of powerful political sponsors.

The Earth, in fact, as proven by the latest research of conscientious and responsible Russian and foreign scientists - is a highly organized, living, intelligent Cosmic Being, an integral part of which is its flora and fauna, including humanity.

HUMANITY is a living and intelligent ORGAN of the living and intelligent planet of the EARTH.

Our Mother Earth is in a state of pregnancy by us, by all mankind.

The main, the most important quality of man - the presence of his immortal soul as a natural rational organ of any person, - the particles of the Cosmic Reason, the Cosmic Reason. We emphasize: it is scientifically established that the human soul is an integral natural part, the organ of the human body that carries out rational activity, thought processes, and which directly controls the work of the brain (this kind of biocomputer) and the entire central nervous system (CNS).

From birth to the death of a person, each person grows both bodily and spiritually, literally nurturing his natural soul, from the value in milligrams, from newborns, to 1 to 5 grams of organ of protoplasmic substance - to old age. All souls of people, including the souls of all bodily dead our ancestors, together constitute the common Immortal

Soul of Mankind. Through the Soul of Mankind, this most powerful natural cosmoplanetary egregor-catalyst, - at the time of "hour X", determined by Mother Earth, the time can be the death of all mankind and at the same time the emergence of a new cosmic heterogeneity (planet, star or even galaxy) in a certain part of the universe. This is the highest, cosmic meaning of the existence of mankind as a single intelligent super-being. Our Mother Earth is simultaneously - and the cradle of humanity, and its home, and its cosmodrome - for the flight of the Soul of Mankind to eternity itself.

Humanity as a whole, as individuals, being the physical organs of the planet Earth, have a hierarchy of biorhythms completely subordinated and synchronized with the global bio-geophysical rhythms of our Mother Earth. We are connected with it forever "umbilical cord", - habitat; and we have a common destiny with her.

Mother Earth carefully wrapped us with its electromagnetic fields and literally swaddled a thin ozone layer - from the deadly, for all living, stiff cosmic radiation. Its main goal is to contribute to the growth and consolidation of humanity in the highest degree by the cumulative Soul of Mankind. And the meaning of human life is to nurture the strength and energy of one's soul, the main figure through which an explosive catalytic process is launched one day, in an "hour X," one of the countless many such death-birth processes of an infinite number of intelligent civilizations in the vast expanses of the universe. - That the Universe is always renewed and transformed.

For the universe as a whole, the death of any intelligent civilization and the simultaneous birth of a new nonequilibrium space object is a kind of inhalation and exhalation. The whole universe as a whole literally lives (breathes!), Thanks to the endless number of endless deaths-births of intelligent civilizations like human civilization.

Now our Mother Earth is in an energetically oversaturated state;

and it is ready at any time to dump excess energy by jumping the nutation angle by 1 or even 2 degrees at a time. Such global tremors occur regularly every 12,000 years. Scientifically proved that the last time the Earth dumped the surplus of its energy exactly 12 thousand years ago, in the early Dryas. No one, except Mother Earth herself, knows the exact moment, the "hour of X". But this moment, of course, also depends on the behavior of all mankind, as an integral natural organ of the body of our Mother Earth.

During the global human catastrophe, the Earth will free itself from its pregnancy, and mankind, dying and dematerializing itself

bodily, by the power of the cumulative Soul of Mankind, will give birth in a single impulse to a new cosmic object.

She gives birth - so that the thread of life in the Universe will not be interrupted, and the candle of the Universal Mind will not die away!

All of the above thoughts belong to the best representatives of Russian and foreign science of the 20th century, famous scientists: Vernadsky VI, Gurvich AG, Bauer E., Berg LS, Lyubishchev AA, Yanshin AL, Mochanov Yu.A., Lauterbach, Tayyar de Chardin, Florensky, Chizhevsky AL, Gumilev LN, Bom, Pribram, Frolov IT, Kobozev NI, Moiseev NI, Bekhtereva NP, Kaznacheev VP, Mikhailova LP, Sharapov IP, Piotrovsky MV, Yanitsky IN, Garyaev PP, Petrakovich GN, Makarov V A.A., Kolesnikov I.V.

Russia

150 years ago, an independent, unreported world-wide secret government VIP-person box was formed. It set itself the goal of destroying, dissolving completely, without rest, a white European race. We must finally understand and accept the indisputable truth that the autochthonous white race, which is the spiritual core of the whole civilization for ten millennia, at the present time - through the efforts of the secret lodge and the world academic science - is in a catastrophic state of its biological force, in a state of assimilation and psychosomatic degeneration. Irreversible mutational processes at the gene level, pernicious for the whole species of homo sapiens, are triggered by this self-contained falsehood with inhuman, animal, pathological cruelty. And it gives its fatal results in the whole range of the white race. The Lodge leads an open, cynical war to undermine the power of the Soul of Mankind, to its complete destruction. This is a crime not only against humanity, but also a crime against the universe.

The white Europeanoid race belongs to the most ancient archeological cultures of mankind: the Arctic culture of the Northern Urals and the entire European Circumpolar region, the culture of Keltiminar, the Dnepropetrovsk culture, culture. The Middle Stack, cultures of the Mediterranean, culture of the Funnel-shaped Cups, Catacomb culture, Yamnaya culture, Andronovo culture. In other words, the territory of Eastern Europe and the Near East from the Northern Urals to the Hindu Kush and the Pamirs, the Great Russian Plain and the Great Eurasian steppe are the homeland of mankind, after the glacial period of its existence, 12 thousand years long.

Thus, the historical thousand-year-old Russia possesses the territory of the most ancient cradle of the modern white race and of all mankind; it has - by right of spilled blood, sweat and tears, strewn with the bones of its ancestors on the many thousands-year ethnopolitical path of its inception, maturity and bloom.

Further. On the ancient written monument of mankind, the Terterian plate (Vinca-Turdash culture, modern Romania, 5 thousand BC), inscribed sacred letters and a direct symmetrical cross-amulet. On the ancient archaeological monuments of the Near East (Hassun culture), Namazga I (southern Turkmenistan) and Sialka (central Iran) - the universal design and numerous ornaments in the form of a direct symmetrical cross - the symbol of Eternity, the symbol of the universe. Thus, the white European race, the Divine truth of the Cross was given at once - and moreover in its entirety. That is, from the infant age to this day - the soul of the white European race is a Christian.

Further. It has been scientifically established that the oldest written language of mankind, that is, the first-written manuscript of mankind, is the "syllabary of the Proto-Slavonic letter", the language of which is Old Slavonic ("Church Slavonic", "Old Russian"). This letter was the basis for the creation in the future of regional slangs, dialects, dialects: the so-called Indo-European family of languages, the ancient Greek language, Latin and all other languages. The cuneiform of Sumer, Babylon, Assyria, the writing of Crete-Mycenae, Mohenjo-Daro and Harappa, the Etruscan letter are also the pre-Slavic written monuments that are read unambiguously and reliably only in the Old Slavonic language.

History is a witness: historical Russia - by right of the World Cultural Center of Humanity, by right of the keeper of fundamental natural knowledge - is the undisputed leader of the white race and of all mankind. And is it not for this reason that it is precisely Russia that wants to destroy historical Russia, to destroy its indigenous people? "World government", represented by individuals of the degenerates of the human race, leads the whole of mankind to the same degeneration, to sins and insanity. The clear goal of this self-styled Lodge of the satanic inhumanity becomes clear until transparency - to deprive people of their Divine gift and destiny - to destroy the cumulative Soul of Mankind. For the purpose of these monsters is to destroy the soul of every person, to destroy the mind and consciousness by immersing each person in the uncleanness of the eight deadly sins. Then the soul of a person literally fades, and the person - without his soul turns into a primitive and easily

controlled (Satan) mechanical "Descartes' typewriter", - "an anthropoid robot". Instead of the homo sapiens ("reasonable man"), an anthropoid ape, golem, homunculus of antichrist is obtained.

We emphasize: the archaic religious tradition of the white race directly connects (as early as 7 thousand years!) The concept of "mortal sins" (gluttony, fornication = lust, greed, despair, anger, despondency, vanity, pride) with the death of the immortal soul of man, as the most valuable thing a person has.

And to us, the world academic science hammers a satanic fairy tale about it from this diaper about the fact that man is the same animal as everyone else, and that he has no soul, and there are only reflexes ...

Thus, if the indigenous people of historic Russia die, the entire white European race of mankind will inevitably perish. At the same time, a catastrophe occurs for the cumulative Soul of Mankind, the whole civilization loses the meaning of its existence, its destiny, and humanity is eliminated (destroyed, dissolved) completely and forever as a useless (soulless!) For the Universe material education devoid of Divine reason.

All the data given in this section have a strictly scientific, proven in practice basis, shown by Russian scientists of the 18-20th centuries: Tatischev VN, Lomonosov MV, Empress Catherine II, Fadei Volansky, Egor Ivanovich Klassen, Fedor Buslaev, Academician Trubachev O.N., Academician Rybakov B.A., Doctor of Philology, Professor, Director of the Institute of Linguistics. Putin

Vladimir Putin, undoubtedly, is the strongest public politician of modern Russia; and in front of him - his "star hour" - in 2012 his 60th birthday (the end of the fifth 12-year solar cycle of his life, that is the main summing up of the life lived in the life of any person). But he is in many ways a puppet, that is, a person not free in the choice of principle actions. The Soviet-party economic nomenclature of the USSR, their relatives and approximate ones, still rules the Russian policy (internal and external).

However, Putin is the only politician in Russia, for whom the vast majority of citizens can go if he sees in his calls unselfishness, wisdom and courage in a true assessment of the catastrophe that has developed in the country, no matter how "the world government" and his servants scream.

The same is true for all of humanity: Putin is the hope of salvation from the global socio-political and phylogenetic catastrophe of the species homo sapiens in the world.

Putin's mission as the savior of all mankind is as follows.

1. To honestly recognize and declare the existing legal legislative base of the Russian Federation as NON-CURRENT, and the existing state structure of the RF-RSFSR-USSR -... A NON-PROHIBITED QUASI-STATE EDUCATION, which has a pronounced ANTIRUSSIAN orientation since February 1917.

2. To be honestly recognized as the only legitimate legal base on the modern territory of the Russian Federation - FUNDAMENTAL LAWS OF THE RUSSIAN EMPIRE.

3. To declare Beatrix the Queen of the Netherlands as the only legitimate heir to the All-Russian Throne and Crown of the Russian Empire, in full accordance with the Law of the Succession of 1798 of Emperor Paul the First.

4. The All-Russian Local Council should bless the whole Russian people to swear allegiance and allegiance to the Hereditary Empress of the All-Russian - the most illustrious Queen of the Netherlands Beatrix - as her true and only All-Russian monarch.

5. Bring all current government officials and employees (the so-called "legislative, executive and judicial power of the Russian Federation") and all municipal employees - through their general resignation - to the All-Russian Empress Beatrix's oath of allegiance.

Русское Физическое Общество

At the same time, Putin assumes the functions of the CHANCELLOR of the Russian Empire.

These are the real results and possible scenarios for the near future of humanity's completion of its 12-thousand-year development cycle, which for our Mother Earth is like one breath in and out. So, for civilization comes the "moment of truth"

To accomplish all this, Putin has less than a year left. All the rest, "compromise" options are equally pernicious - both for Russia and for all mankind.

Earth - Russia - Putin. Three words - one fate. - The fate of all mankind.

The Most Holy Theotokos save us!
